

Hall I:

- 09.00 - 10.00 **Opening Ceremony**
Zuhal Aykaç (Istanbul, Turkey, Sait Tarhan (Rochester, USA & Marco Ranucci (Milan, Italy)
- 10.00 - 10.30 **Coffee & Exhibition**
- 10.30 - 12.00 **Panel :Transfusion update**
Chair: Carl-Johan Jakobsen (Denmark), Bora Aykaç (Istanbul, Turkey)
 -The impact of blood transfusions and fluids on tissue oxygenation and the microcirculation during anesthesia and surgery. *Can Ince (Amsterdam, NL)*
 - Development of permanent national register of blood component use utilizing electronic hospital information system. *Riikka Palo (Finland)*
 -Alternative to blood transfusions. *Wulf Dietrich (Munich, Germany)*
- 12.00 - 13.00 **Oral I – Haemostasis**
Chair: Timo Rinne (Finland), Özcan Erdemli (Ankara, Turkey)
- O-01 Predictors of clot firmness after high risk cardiac surgery
C. Jambor, C. F. Weber, N. Josipovic, K. van Beesel, W. Korte, B. Zwissler
- O-02 In vitro platelet function of platelet concentrates transfused to high risk cardiac surgery patients as determined by bedside impedance aggregometry. *Csilla Jambor, Christian F. Weber, Kathleen van Beesel, Nenad Josipovic, Markus M. Mueller, Bernhard Zwissler*
- O-03 Comparing clinical and laboratory response to platelet transfusions in high risk cardiac surgery patients assessed by bedside impedance aggregometry. *Csilla Jambor, Christian F. Weber, Kathleen van Beesel, Nenad Josipovic, Markus M. Mueller, Michael Spannagl, Bernhard Zwissler*
- O-04 Assessment of the haematological and haemodynamic influence of colloid and crystalloid solutions in acute normovolaemic haemodilution in coronary artery bypass grafting surgery. *Omid Aghadavoudi, Jalal Ostovan*
- O-05 Determinants of postoperative bleeding after coronary bypass surgery
Sahin Senay, Fevzi Toraman, Hasan Karabulut, Cem Alhan

13.00 - 14.00 **Lunch**

Hall II:

Panel: Thoracic Epidural Analgesia in CABG

- Chairpersons: Uwe Schirmer (Ulm, Germany), Levent Kılıçkan (Istanbul, Turkey)*
 - The Cardioprotective effects of thoracic epidural anesthesia. *Gerhard Brodner (Münster, Germany)*
 - Do we have an impact on outcome ? Epidural vs iv analgesia. *Sven-Erik Ricksten (Göteborg, Sweden)*
 - CABG in the Awake Patient. *Beyhan Bakkaloğlu (Ankara, Turkey)*

Oral II - Cerebral Monitoring and Protection

- Chair: Lila Papadimitriou (Greece), Lale Yüceyar (Istanbul, Turkey)*
- O-06 Intraoperative regional cerebral oxygen saturation monitoring in risk patients undergoing cardiac surgery: predictors of desaturation
AP Lourenço, F Vieira, JF Viterbo
- O-07 Cerebral oxygenation monitoring in patients undergoing deep hypothermic circulatory arrest for cardiothoracic surgery. *Matthias Heringlake, Volker Serien, Thorsten Hanke, Hermann Heinze, Julika Schoen, Lennart Duebener*
- P-18 CHANGE STUDY (Changing intraoperative Anaesthesia strategy based on cerebral oximetry data: effect on incidence of neurologic dysfunction in adult cardiac surgery patients). *Eva Kobzova, Vladimir Cerny, Monika Korenova, Michael Bartos, Josef Kovalsky, Monika Gerlichova*
- O-09 Angiography timing and contrast media amount: new risk factors for renal dysfunction after cardiac operations. *Marco Ranucci, Andrea Ballotta, Daniela Conti, Rajendra H Mehta*
- O-10 Neurological monitoring during cardiac surgery: is it sufficient? *Ertay Boran, Suheyla Unver, Umit Karadeniz, Tugba Yildirim, Ozcan Erdemli*

Industrial Symposium (Organon a part of Schering-Plough Corporation):

Confronting Cardiothoracic Complications.

- Chairpersons: Wulf Dietrich (Germany), Zuhal Aykac (Turkey)*
 - Strategies to help prevent ADR's during CPB. *Dan Longrois (France)*
 - HIT in the critically ill & post cardiac surgery patients. *Wulf Dietrich (Germany)*
 - The role of alternative anticoagulants in VAD, heart failure & transplant patients. *Andreas Koster (Germany)*
 - Preventing serious bacterial/fungal infections in heart transplant patients. *Tahir Yağdı (Turkey.)*
 Panel Q&A Session – All
 Closing remarks - Co-Chairs
