

## THORACIC ANESTHESIA WORKSHOP

### "HANDS-ON" DEMONSTRATION

Wednesday 16:00 – 17:30

Friday 14:00 – 15:30

---

#### A) INTRODUCTION:

Briefly present the faculty and then set-up of the workshop.

#### B) LECTURES : ( 20 min each)

1) Isolation of the lung: DLT (*Mert Senturk and Giorgio della Rocca*)

2) Isolation of the lung: Univent/Blockers (*Edmond Cohen and John Gottard*)

#### C) HANDS-ON DEMONSTRATION

The participants will then divide into groups to visit the various stations.

All stations will be equipped with fiberoptic bronchoscope, video cameras, mannequins, lung models, DLT's and tube exchangers.

Station 1: Left sided DLT/ Tube Exchangers

Station 2: Right sided DLT/ Tube Exchangers

Station 3: Univent Tube:

Station 4: Arndt Endobronchial Blocker

Station 5: Cohen Flexitip Endobronchial Blocker

Station 6: Tube Exchangers or Glide scope or Thoracic epidural

#### Workshop Objectives

The first part of the workshop will review the methods of lung separation (DLT's and Endobronchial Blockers). The next two hours will provide a unique opportunity to participate in the hands-on demonstration of the methods of lung separation. Several stations with fiberscopes attached to video cameras and mannequins with lung models, will be available for demonstration and practice. These will include the insertion and positioning of left and right sided double lumen tubes. Univent tubes, Arndt Endobronchial blocker, Cohen Flexitip endobronchial Blocker and a Thoracic Epidural with a Spine Model or a GliderSCOPE . Some Stations will include Tube Exchangers for difficult airway.
