

## Web streaming - EACTA Annual Congress 2013, Barcelona

### 68 Webcasts:

- Highlight of EACTA 2013 Meeting: **Panel Discussion** (Jun 15, 2013; 32106)
- Optimizing the patients for cardiac surgery: Any evidence?: **Manfred Daniel Seeberger** (Jun 8, 2013; 31862)
- Diastolic heart failure in anaesthesia and critical care: **Fabio Guarracino** (Jun 8, 2013; 31863)
- Mediastinitis after heart surgery: could we achieve a better outcome?: **Emilio Bouza** (Jun 8, 2013; 31864)
- The effects of steroids on cerebral outcomes after cardiac surgery: **Thomas Ottens** (Jun 8, 2013; 31858)
- Off-pump valvular procedures. New technique or new fashion?: **Joerg Ender** (Jun 8, 2013; 31859)
- Minimal Access cardiac surgery: The future?: **Daniel Pereda** (Jun 8, 2013; 31860)
- EACTA Thoracic Subcommittee European survey on 'One lung intubation': **Laszlo Szegedi** (Jun 8, 2013; 31861)
- Coagulation and anticoagulation in paediatric cardiac patients: **Philippe Pouard** (Jun 8, 2013; 31871)
- Ethical issues around research in paediatric cardiac surgery: **Paul Baines** (Jun 8, 2013; 31872)
- Basic mechanisms of ALI.: **Masao Takata** (Jun 8, 2013; 31854)
- Current strategies for ICU management of ALI.: **Javier Belda** (Jun 8, 2013; 31857)
- Experience in multidisciplinary simulation training in perfusion incidents.: **Frank Merkle** (Jun 8, 2013; 31869)
- Multidisciplinary combat against perfusion complications - guidelines, communication or checklists?: **Alexander Wahba** (Jun 8, 2013; 31870)
- Ischemia-reperfusion injury in lung transplantation.: **Nandor Marczin** (Jun 8, 2013; 31855)
- Twenty years' leap in perfusion education in Europe: **Jan-Ola Wistbacka** (Jun 8, 2013; 31868)
- Invited Lecture 8: When should the anaesthesiologist say no?: **Michael HIESMAYR** (Jun 8, 2013; 31897)
- Invited Lecture 10: perioperative pain therapy: new concepts: **Anna Flo** (Jun 8, 2013; 31898)
- Prompt brain death diagnosis in the potential donor. Implications for cardiothoracic organ function: **Rafael Badenes** (Jun 8, 2013; 31865)
- The 'Organ Care System Lung': A new and expected tool?: **Francisco Javier Moradiellos** (Jun 8, 2013; 31866)
- Optimal Ventilation in postoperative lung transplant: **Javier García Fernández** (Jun 8, 2013; 31867)
- Invited Lecture 9: Low flow during eCC: Still good?: **Jouko Jalonen** (Jun 8, 2013; 31896)

**EACTA**

**The European Association of  
Cardiothoracic Anaesthesiologists**

- The influence of dexamethasone on intraoperative and postoperative lactate levels and glycaemic control in... : **Thomas Ottens** (Jun 8, 2013; 31994)
- Selective antegrade cerebral perfusion: effect of increasing flow rate on cerebral oxygen saturation and... : **Reto Basciani** (Jun 8, 2013; 31996)
- Feasibility of contrast echocardiography in assessment of total aortic regurgitation following TaVI: **Marian Kukucka** (Jun 8, 2013; 31992)
- Aetiology of preoperative anaemia in patients undergoing cardiac surgery: **Erik Ortmann** (Jun 8, 2013; 31993)
- Association between platelet count and platelet function in paediatric cardiac surgery: **Birgitta Romlin** (Jun 8, 2013; 31995)
- Invited Lecture 6: Perioperative renal protection strategies in cardiac surgery.: **Marc Vives** (Jun 7, 2013; 31894)
- Total circulatory arrest: What's new?: **Pascal Colson** (Jun 7, 2013; 31841)
- Difficult weaning from CPB, something different?: **Olivier Bastien** (Jun 7, 2013; 31842)
- Pulmonary hypertension and right ventricular failure: new tools for an old problem?: **Didier Payen** (Jun 7, 2013; 31843)
- Goal directed Monitoring in cardiothoracic and vascular intensive care.: **Christof K. Hofer** (Jun 7, 2013; 31851)
- Echocardiography in cardiothoracic intensive care: just a new tool?: **Isabelle Michaux** (Jun 7, 2013; 31852)
- Invited Lecture 4: pharmacoeconomics of transfusion: **Axel Hofmann** (Jun 7, 2013; 31850)
- How do we attract more doctors and nurses into intensive care medicine? : **Andrew Rhodes** (Jun 7, 2013; 33499)
- Any intensivist can be a good cardiothoracic intensivist.: **Andrew Rhodes** (Jun 7, 2013; 31840)
- ECMO is best: **Alain Combes** (Jun 7, 2013; 31848)
- VAD is best : **Michael Sander** (Jun 7, 2013; 31849)
- New oral anticoagulants in cardiac surgery - management of coagulation and haemostasis.: **Wulf Dietrich** (Jun 7, 2013; 31837)
- Lung Ultrasound: enough evidence to support its routine use in anaesthesia and critical care medicine?: **Fabio Guarracino** (Jun 7, 2013; 31845)
- Myocardial deformation imaging: a major step forward or just a waste of time? Current status.: **Patrick Wouters** (Jun 7, 2013; 31846)
- Will 3D/4D become the mainstay soon: clinical evidence for its incremental value?: **Burkhard Mackensen** (Jun 7, 2013; 31847)
- New antiplatelets. A problem in cardiac surgery?: **Jose Mateo** (Jun 7, 2013; 31836)
- Free fluid therapy is best: **Giorgio Della Rocca** (Jun 7, 2013; 34892)
- Preoperative optimization of anemia, improves outcome?: **Hans Gombotz** (Jun 7, 2013; 31833)
- The bleeding patient.: **Marcel Levi** (Jun 7, 2013; 31834)

- Impact of the age of red blood cells in the outcome after cardiovascular and thoracic surgery.: **Christian von Heymann** (Jun 7, 2013; 31835)
- Restricted fluid therapy is best: **Peter Slinger** (Jun 7, 2013; 31881)
- Fibrinogen: Necessary in cardiovascular surgery? PRO: **Sibylle Kozek** (Jun 6, 2013; 31825)
- Fibrinogen: Necessary in cardiovascular surgery? CON: **Wulf Dietrich** (Jun 6, 2013; 31826)
- What should a 'cardiac' anaesthesiologist teach a 'thoracic' anaesthesiologist?: **Patrick Wouters** (Jun 6, 2013; 31823)
- What should a 'thoracic' anaesthesiologist teach a 'cardiac' anaesthesiologist?: **Peter Slinger** (Jun 6, 2013; 31824)
- Indication, contraindication and controversies for endovascular aortic replacement in Abdominal Aortic Aneurism... : **Manfred Gschwendtner** (Jun 6, 2013; 31830)
- Anaesthetic and postoperative management in endovascular aortic replacement.: **Simon Howell** (Jun 6, 2013; 31832)
- Invited Lecture 3: Delirium after cardiac surgery: **Alexandros Stefanidis** (Jun 6, 2013; 31880)
- Invited lecture 1: Better organ protection– is anaesthesia enough?: **Peter V. Sackey** (Jun 6, 2013; 31878)
- Cerebral Oximetry: Better monitoring, improved patient outcomes, both or neither?: **Hilary P. Grocott** (Jun 6, 2013; 31820)
- Monitoring with Point-of-Care Hemostasis Testing - Does it affect outcome in perioperative bleeding and in which...: **Keyvan Karkouti** (Jun 6, 2013; 31821)
- Transcatheter AVR - Does this technology have merit and in whom? An anaesthesiologist's perspective.: **Jack Shanewise** (Jun 6, 2013; 31822)
- Invited lecture 2: postoperative atrial fibrillation - anything new?: **Alberto Hernandez Martinez** (Jun 6, 2013; 31879)
- Does new technologies help anaesthesiologists to manage critical situations?: **Erik Jensen** (Jun 6, 2013; 31817)
- Does technology make us risk averse or risk aware?: **John Kneeshaw** (Jun 6, 2013; 31818)
- Wireless anaesthetic data management: **Andrew Pybus** (Jun 6, 2013; 31819)
- Milrinone relaxes pulmonary veins in precision-cut lung slices from guinea pigs and humans: **Annette D. Rieg** (Jun 13, 2008; 31987)
- A meta-analysis of randomised controlled trials on dexmedetomidine in critically ill patients: **Gianluca Paternoster** (Jun 13, 2008; 31988)
- Air warming during CaBg: simple method to prevent microcirculation disturbances: **Irina Tolstova** (Jun 13, 2008; 31989)
- A comparison of interindividual variability between thromboelastography (Teg) and rotational thromboelastometry...: **Andrew Sinclair** (Jun 13, 2008; 31990)
- Tricuspid annular plane systolic excursion (TapSe) in the modified deep transgastric right ventricle view as an...: **Anna Flo** (Jun 13, 2008; 31991)

- Cerebral Oximetry: Better monitoring, improved patient outcomes, both or neither?: **Hilary P. Grocott** (Jun 6, 2013; 31820)
- Monitoring with Point-of-Care Hemostasis Testing - Does it affect outcome in perioperative bleeding and in which...: **Keyvan Karkouti** (Jun 6, 2013; 31821)
- Transcatheter AVR - Does this technology have merit and in whom? An anaesthesiologist's perspective.: **Jack Shanewise** (Jun 6, 2013; 31822)
- Invited lecture 2: postoperative atrial fibrillation - anything new?: **Alberto Hernandez Martinez** (Jun 6, 2013; 31879)
- Does new technologies help anaesthesiologists to manage critical situations?: **Erik Jensen** (Jun 6, 2013; 31817)
- Does technology make us risk averse or risk aware?: **John Kneeshaw** (Jun 6, 2013; 31818)
- Wireless anaesthetic data management: **Andrew Pybus** (Jun 6, 2013; 31819)
- Milrinone relaxes pulmonary veins in precision-cut lung slices from guinea pigs and humans: **Annette D. Rieg** (Jun 13, 2008; 31987)
- A meta-analysis of randomised controlled trials on dexmedetomidine in critically ill patients: **Gianluca Paternoster** (Jun 13, 2008; 31988)
- Air warming during CaBg: simple method to prevent microcirculation disturbances: **Irina Tolstova** (Jun 13, 2008; 31989)
- A comparison of interindividual variability between thromboelastography (Teg) and rotational thromboelastometry...: **Andrew Sinclair** (Jun 13, 2008; 31990)
- Tricuspid annular plane systolic excursion (TapSe) in the modified deep transgastric right ventricle view as an...: **Anna Flo** (Jun 13, 2008; 31991)

#### **62 Video Podcasts:**

- Highlight of EACTA 2013 Meeting: **Panel Discussion** (Jun 15, 2013; 32106)
- Optimizing the patients for cardiac surgery: Any evidence?: **Manfred Daniel Seeberger** (Jun 8, 2013; 31862)
- Mediastinitis after heart surgery: could we achieve a better outcome?: **Emilio Bouza** (Jun 8, 2013; 31864)
- The effects of steroids on cerebral outcomes after cardiac surgery: **Thomas Ottens** (Jun 8, 2013; 31858)
- Minimal Access cardiac surgery: The future?: **Daniel Pereda** (Jun 8, 2013; 31860)
- EACTA Thoracic Subcommittee European survey on 'One lung intubation': **Laszlo Szegedi** (Jun 8, 2013; 31861)
- Coagulation and anticoagulation in paediatric cardiac patients: **Philippe Pouard** (Jun 8, 2013; 31871)
- Ethical issues around research in paediatric cardiac surgery: **Paul Baines** (Jun 8, 2013; 31872)
- Basic mechanisms of ALI.: **Masao Takata** (Jun 8, 2013; 31854)
- Ischemia-reperfusion injury in lung transplantation.: **Nandor Marczin** (Jun 8, 2013; 31855)

- Current strategies for ICU management of ALL.: **Javier Belda** (Jun 8, 2013; 31857)
- Twenty years' leap in perfusion education in Europe: **Jan-Ola Wistbacka** (Jun 8, 2013; 31868)
- Invited Lecture 8: When should the anaesthesiologist say no?: **Michael HIESMAYR** (Jun 8, 2013; 31897)
- Invited Lecture 10: perioperative pain therapy: new concepts: **Anna Flo** (Jun 8, 2013; 31898)
- Experience in multidisciplinary simulation training in perfusion incidents.: **Frank Merkle** (Jun 8, 2013; 31869)
- Prompt brain death diagnosis in the potential donor. Implications for cardiothoracic organ function: **Rafael Badenes** (Jun 8, 2013; 31865)
